## **Naval Sea Systems Command (NAVSEA) Awards NAG Marine 5-Year, \$33 Million Indefinite Delivery/Indefinite Quantity (IDIQ) Contract for Supplies**

Norfolk, VA

November 7, 2017

NAG Marine, Norfolk, Virginia, is being awarded a \$33,270,860 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for supplies, with cost-plus-fixed-fee line items for incidental services.

NAG Marine will provide radar tank level indicators and time domain reflectometry tank level indicators (TLIs) which will be used on board ships of the US Navy, Military Sealift Command, US Army. NAG Marine may also provide programmable logic controllers (PLCs) uninterruptible power supplies (UPS), embedded computers, operator interface panels/human machine interfaces (OIPs/HMIs) networking equipment and ball valves. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity.

### **About NAG Marine**

NAG Marine is a systems integration technology company that sells, designs, and services shipboard systems and associated control components aboard ocean going vessels. NAG Marine was originally founded in 1999 to service the monitoring and control systems automation needs of US Navy vessels.
