NAG, LLC, d/b/a Naval Automation Group & NAG Marine is the leading marine Fluid Control and Automation product and service company for government and commercial vessels. Our goal is to achieve a high level of customer service and satisfaction by meeting all contractual requirements within cost and schedule while developing lasting customer loyalty. We will deliver this by continuously improving our products and services based on performance data. Further, we empower our employees to be change advocates and conduct business as a unified corporation. NAG will maintain the highest ethical and legal standards in its business dealings.
